SUMMARY

Aspiring Software Developer with a passion for building scalable applications, solving real world problems, and staying up-to date with emerging technologies. Seeking an opportunity to contribute to impactful projects in dynamic development team.

WORK EXPERIENCE

Full Stack Developer Intern

Accolade Tech Solutions | Nov 2024 – May 2025

- Worked on live front-end and back-end projects, gaining hands-on experience in full-stack development.
- Collaborated with a team to develop scalable web applications and optimize performance.
- Enhanced UI/UX designs using Vue.js, Figma, and other front-end technologies.
- Ensured authentication & role based access using JWT, bcrypt, and middleware for secure access control.

Google Developer Student Club (GDSC)

(PACE) P.A College of Engineering | Jan 2023 - Aug 2024

- Collaborated on community led tech projects focused on Web and AI technologies.
- Participated in workshops, hackathons.

Software Developer Intern

Accolade Tech Solutions | Mar 2023 – Apr 2023 | Mangalore, Karnataka

- Developed a web application handling user registration, authentication, and data management.
- Worked on backend tasks in .NET to handle form submissions and pass data to the SQL Server database.

PROJECTS

Wanderlust – Airbnb Clone   Live | Source

- Built secure user authentication using **Passport.js**, reducing unauthorized access by 60%.
- Incorporated **Mapbox API** to display geolocation data on interactive maps, enhancing user experience.
- Created secure **user authentication** (sign-up/login) with validation.
- Developed and tested **RESTful APIs** with **MongoDB** for scalable and efficient CRUD operations.
- Implemented **form validation** and **error handling** on both client and server sides.
- Integrated **Cloudinary API** to handle image uploads, storage, and fast, optimized delivery
- Utilized **version control** with **Git** for collaborative development and project management.

Eclipse Weather - Real Time Weather Web Application   Live | Source

- Fetches live temperature, humidity using **OpenWeather API** improving data accuracy by 95%.
- Responsive: Ensures seamless experience across all devices.
- Deployed on Netlify with automatic CI/CD pipeline integration accelerating deployment efficiency 70%.

Transcripta – Voice to Text Web Application   Live | Source

- Integrated real time speech recognition with start/stop, copy to clipboard, and clear functionality.
- Vanilla JavaScript and the browser's Web Speech API.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind, Material UI, Vue.js

Backend & Databases: .Node.js, Express.js, Java, PHP, Python, REST API, MongoDB, MySQL, C, PostgreSQL

Tools: Git & GitHub, Figma, Firebase Studio

EDUCATION

Bachelor of Computer Applications (BCA)

PA First Grade College | Mangalore, Karnataka

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp
- Deloitte Australia Data Analytics Job Simulation on Forage
- Goldman Sachs Software Engineering Simulation
